The Tremblant Story

On the shores of Lac Tremblant, just outside the Village of Mont Tremblant in the Quebec Laurentians, is the Resort of Tremblant. The mountain, with the Pedestrian Village at its base and homes dotting the hillside, provides an impressive sight and a spectacular background to experience all the fun Mother Nature can provide in summer. There are so many types of restaurants, shops and activities to experience that every member of the family and every type of family is sure to find something to meet their needs.

Village entertainment has a tradition of warmth and excitement with an unmistakable French-Canadian joie de vivre. Street clowns and musicians surprise and delight. Irresistible boutiques, movie theatres and sizzling nightlife add to the magic that is Tremblant.

There is a sense of élan about the French, oui? And here at Tremblant you will discover all the flavors of Europe along with some of the most magnificent varied landscape in the Laurentian region.

For those who enjoy fresh mountain air and the authentic charm of small towns in the Laurentians, you will discover a profusion of lakes, calm and rumbling rivers, and outstanding views of magnificent mountains. Situated in a region of Quebec where there is both the beauty of the country landscape and a plethora of activities: mountain climbing, biking, golfing, fishing, swimming, hiking, canoeing, to name only but a few of the activities available.

The Tremblant Story

Then there is the world class tennis schools at Gray Rocks and Tremblant. The Golf Academy at Le Diable .Terrific white water rafting, horse back riding and lessons. 6 magnificent championship golf courses.

Cruises on Lac Tremblant, the renowned Trembalnt Blues Festival, a must see event. Then there is the race track at Le Circuit Tremblant, a variety of concerts, music festivals, star watching seminars and so much more.

You can take a short or an all day canoe trip or even go for an over night adventure.

Don't forget it is OK to sit by the pool or on the dock and relax as well.

If you are planning to bring along a kids aged 1 to 6 years, Mother Nature Daycare Camp offers a safe, supervised facility. Pagers are available for added peace of mind while parents are on doing their thing or just lounging around in the many picturesque nooks and crannies of the pedestrian resort.

Comfortable restaurants and bars await (dance on the bar at Le Petit Caribou if it takes your fancy). A great wine bar located in the pedestrian village is Le Grappe de Vin. Enjoy the laid back yet exquisite food of a great local restaurant like Patrick Bermands. Le Sauvigan or Le Cheval Jade (The Green Horse) for great Southern Mediterranean French cuisine in Old St. Jovite Village, join the chef and see your food being prepared.

The Tremblant Story

Visit the local micro brewery pub in the pedestrian village to sample the best Le Diable (The Devil) has to offer.

Shops and stores abound in the resort village and near by in Old St. Jovite Village or Old Tremblant Village there are many other treasures to be found. New places with enchanting names to be explored every day.

Don't forget your bathing suits for your private pool or hot tub or for a visit to La Source Aqua club - Pool and Fitness Centre. Visit the mini golf course located on the roof of the fitness center.

If shopping is one of your passions you won't be disappointed either. From clothing to toys for girls and boys along with souvenirs and plenty of golf and tennis accessories, a stroll through the pedestrian village or the hotel lobbies is sure to offer something you just have to have.

With so much to do and so little to do it exploring the Tremblant mountain area it's no wonder so many families visit this region summer after summer. Then there is all the fun offered in the winter but that's another story.

We could go on forever but we think you get the wide variety and diversity of things to do within a 20 minute radius of Tremblant.
